Hyperammoneamia Crash Course

30th September 2022

2nd Hyperammonemia Crash Course

 30th September 2022

Objectives

- Understand the acute management of hyperammonemia; the chronic management of Hyperammonemia; and the hyperammonemia diagnostic approach.
- Be familiar with the clinical approach to hyperammonemia.
- Meet with an expert to discuss hyperammonemia challenges and questions.
- Recognize the dietary management of hyperammonemia.
- Know the laboratory approach to hyperammonemia

Audiences

Genetics fellows, laboratory geneticists, clinical geneticists, pediatricians, neurologists, metabolic dietitians, neonatologists and pediatric residents

2nd Hyperammonemia Crash Course

30th September 2022

Topic & Speaker

13:00 - 13:30	Welcome and introduction
13:30 - 14:30	Pre course exam Prof. Majid Alfadhel
14:30 - 15:30	Hyperammonemia-laboratory approach Dr. Mohammed Almannai
15:30 - 16:30	Case scenarios about hyperammonemia Dr. Fuad Almutairi
16:30 - 17:30	Dietary management of hyperammonemia Ms. Lina Alohal
17:30 - 18:00	Differential diagnosis of hyperammonemia Dr. Mohammed Amuqbil
18:00 - 19:00	Meet expert discussion about hyperammonemia All faculty
19:00 - 20:00	Post course exam Dr. Mohammed Almannai
20:00 - 20:05	Closure the second course All faculty
